

Looking to Hire Ready-to-Work Employees with Required Environmental and Construction Safety Certifications?

We Have a Solution! Consider our Graduates from the Construction and Environmental Job Training Program! We invite local employers to stop in and speak to our students during a "Lunch and Learn" session. Students will get a chance to hear about your organization, what a day-in-the-life at your business might look like and share current or upcoming job opportunities (Students will have resumes ready for you!).

Partner with us to support community economic growth by hiring local, qualified graduates. Together we can make a difference in our community and our environment!

Graduates of our worker training program are trained and certified in the following topics:

- HAZWOPER Site Worker 40 Hour
- OSHA Certification 10 Hour (Construction)
- Powered Industrial Truck (Forklift)
- Renovation, Repair, and Paint (RRP)
- CDL Permit Training
- First Aid, CPR, & AED
- Asbestos Worker
- "Muck and Gut" and MORE...

Contact Kim Kelley at kkelley@sustainablewp.org or call (863) 438-1467 to learn more.
